MARK PETERSON
Construction Loan Specialist

5 Reasons Why Our Automation Simplifies Even the Most Complicated Construction Projects

1

Have a particular vendor you prefer to use? Please do! You are free to purchase building materials at the location of your choice.

2

Have invoices to be reimbursed for purchases made in-person or online? Save yourself a trip! Email your loan officer the receipt/invoice.

3

Want to keep the invoice for your records? Not a problem! Take a picture with your phone and forward the receipt/invoice with a short message on what you want done. For example: 'pay the invoice' or 'reimburse my account'.

4

Time to pay contractors and sub-contractors? Relax! Same process applies on payments for work completed.

5

Have lien waivers to process? Breathe easy! We automatically take care of the lien waivers for you.

Regardless of how fast or slow your construction project is progressing, our automated processes will keep your invoices and reimbursements on schedule. Give us a call today at 800.440.6573 and let's talk about your next construction project.
